

# PUBLIC SCHOOL DARBHANGA

SESSION 2020 – 21

## Class Prep – Skill Development

Try to make triangle from a square piece of paper by folding it diagonally at once. After that cut and paste the number of triangles formed.

A	B
C	D

Take a piece of square paper and mark ABCD then fold it diagonally by bring the corner B towards C and after that cut it from A to D. Two triangles are formed. Paste it on your notebook. (Kids must perform this activity in the presence of their parents). *(This activity will help develop fine motor skills of the children)*
