To find Nemo is to discover underwater treasure. The animation has the depth of the ocean itself. The adventure is both fun and fulfilling. And the lessons just keep on swimming.

Finding Nemo fanatic like me to agree that there are dozens of life lessons throughout the movie that are inspiring and relatable. Here are just a few of the things that Marlin, Dory, and the other fish of Finding Nemo teach us about life:

1. You don't know what you've got till it's gone.
2. Listen to your parents!
3. Beware of strangers
4. Find joy in the small things life.
