Ch-3
Our Neighbours

Name: _____

Date: _____

Q1) Answer the following question in one word.

a) In which year Neil Armstrong landed on Moon?

b) Which is the brightest star in the sky?

c) Name the natural satellite of the Earth?

Q2. Answer the following questions.

a) What is the difference between constellation and star?

b) Describe the Moon.

c) Write the importance of Sun in our life.

ANSWER KEY

Q2.a. Neil Armstrong landed on Moon on 20 July, 1969

- b. Pole Star is the brightest star in the sky.
- c. Moon is the natural satellite of the Earth.

Q3. a) A group of stars forming some patterns or figures is called constellation.

b) Moon is the natural satellite of the Earth. It is the closest neighbor of the Earth. It does not have light of its own. It receives light from the Sun.

c. Sun is very important in our life due to the following reasons:

1. It is the source of light and heat on the Earth.
2. The Sun gives us energy which can be used for several purposes.
3. Plants prepare food with the help of sunlight.
